### **DIGEST**

The Gonzales County Hospital District (district) was created by the 64th Legislature. Since its creation, the responsibilities of the district have grown to respond to community needs. As a result, the name Gonzales Healthcare Systems more accurately reflects the current activities of the district. In addition, the enabling legislation of the district requires that any person desiring to have their name on the ballot must file a petition at least 30 days prior to the date of the election. This is not enough time to allow for the printing of ballots, and is less than the 45 days allowed in the Election Code. This bill will provide regulations for the Gonzales County Hospital District.

### **PURPOSE**

As proposed, H.B. 3566 changes the name of the Gonzales County Hospital District and provides requirements for conducting elections in the district.

### **RULEMAKING AUTHORITY**

This bill does not grant any additional rulemaking authority to a state officer, institution, or agency.
