Committee Report (Substituted)

### **DIGEST**

Currently, Chapter 55, Texas Property Code, induces hospitals to receive patients, injured by negligence of others, by giving the hospital a lien on the claims, suit or settlement of the patient against the negligent third party. Other health care providers are not permitted by law to place a lien on that amount, and, if they choose to provide services, must attempt separate legal action to receive their costs if the patient decides not to pay them with their settlement or award. This bill provides certain health care providers liens on recoveries in civil actions involving health care services provided due to a negligent third party.

### **PURPOSE**

As proposed, C.S.S.B. 202 provides certain healthcare services liens on certain recoveries in civil actions and requires the healthcare providers to give notice of such a lien.

### **RULEMAKING AUTHORITY**

This bill does not grant any additional rulemaking authority to a state officer, institution, or agency.
