DIGEST

Currently, a person who is at least five years of age and under 21 is entitled to receive certain benefits of the available school fund for that year. Because students who are between the ages of 18 and 21 are allowed to attend school voluntarily, there is no mandatory attendance requirement for these students to receive the benefits. This bill provides that a person who is at least five years of age and under 20 is entitled to the benefits of the available school fund, but sets forth certain penalties if a person does not attend school.

As proposed, C.S.S.B. 471 provides that a person who is five years of age and under 20 is entitled to the benefits of the available school fund. Sets forth certain penalties if a person does not attend school.
