### **DIGEST**

Currently, primary election ballots include the party office listing of precinct chairman. A substantial amount of time and effort is being utilized to add the names of precinct chairmen names onto ballots, especially in counties with a large amount of precincts. Precinct chairman votes are required to be hand counted and, as a result, increase the time before the results for county, state, and federal elections are tabulated. S.B. 511 requires separate ballots for the election of the office of the precinct chairman in order to increase the efficiency of the release of county, state, and federal results.

### **PURPOSE**

As proposed, S.B. 511 outlines provisions regarding the use of separate ballots for the election of the office of precinct chairman.

### **RULEMAKING AUTHORITY**

This bill does not grant any additional rulemaking authority to a state officer, institution, or agency.
