### **DIGEST**

The Natural Resources Foundation was created in 1992 to provide a totally diverse forum for the discussion and study of natural resources. In accordance with that mission, the foundation has created the Natural Resources Academies to provide intensive studies concerning our natural resources and their role in everyday life. The academies, in conjunction with Texas colleges, universities, and centers for resource management, will provide state of the art education on natural resource issues to teachers of our next generation, other educators, and natural resource managers. The academies are based on cutting-edge information and practical examples of sound science, working in harmony with the economics of today.

### **PURPOSE**

As proposed, S.C.R. 94 submits the following resolutions:

Provides that the 75th Legislature of the State of Texas hereby commend the Natural Resources Foundation of Texas for its work in establishing the Natural Resources Academies.
