Committee Report (Substituted)

DIGEST AND PURPOSE

Currently, the Board of Vocational Nurse Examiners (BVNE) may only state what it believes is appropriate regarding whether a licensed vocational nurse (LVN) may perform certain tasks under specific settings because LVNs are licensed under a “title-control” act. C.S.S.B. 241 would convert the Vocational Nurse Act (Chapter 302, Occupations Code) from a “title-control” act to a “practice-control” act, thereby allowing BVNE to define what type of direct patient care may be performed by an LVN and in which settings. Also, a practice-control act conveys the legal protection of “safe harbor,” a right provided to registered nurses, medical doctors, and other licensed healthcare professionals, which allows the professional to refuse to perform a task that he or she has not been trained to perform.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
