DIGEST AND PURPOSE

Currently, the top ten percent of each high school graduating class receives automatic admission to a public college or university. There is no requirement, however, that those high school graduates take the recommended high school curriculum, which would better prepare them for success in college. As proposed, S.B. 86 would require high school students to take, at a minimum, the recommended high school curriculum to be eligible for automatic admission to a public college or university.

RULEMAKING AUTHORITY
