### **AUTHOR'S/SPONSOR'S STATEMENT OF INTENT**

The 59th Texas Legislature, Regular Session, 1965, established the Maverick County Hospital District (district) to deliver health care services to the people of Maverick County. In the enabling Act, the legislature set forth all of the guidelines and regulations by which the district was to operate. Health care and its delivery system exist in an environment that changes rapidly. Due to this changing environment, the district is faced with an obligation to deliver services under authority that is no longer adequate to meet the needs of Maverick County. To remedy the situation, the board of directors of the district have asked that its enabling statute be modified to improve the district's ability to fulfill its obligation to deliver health care services.

As proposed, S.B. 1026 updates the responsibilities and duties of the Maverick County Hospital District in an effort to protect the district from financial hardships and gives it appropriate authority to efficiently deliver health care services.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
