### **AUTHOR'S/SPONSOR'S STATEMENT OF INTENT**

During the 78th Interim, the Senate Subcommittee on Higher Education was charged with studying and making recommendations evaluating the cost of increasing the number of Tier 1 universities in Texas. To evaluate the cost of increasing the number of Tier 1 universities, the state must first develop a definition of a Tier 1 university.

As proposed, S.B. 676 requires the Texas Higher Education Coordinating Board (board) to establish a system for designating a general academic teaching institution as a university of the first class, and provides criteria to be considered by the board.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
