### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Currently, nonprofit organizations and certain professional sports organizations are required to deposit \$15,000 with the Texas Department of Transportation (TxDOT) or pre-sell 3,500 sets of license plates before TxDOT will issue the specialty plates. Public and private universities have a requirement of depositing \$15,000 or pre-selling 1,500 sets of license plates for the same purpose. This fee was calculated to ensure that TxDOT was reimbursed for production costs associated with creating a specialty license plate. However, many organizations are unable to pre-sell the requisite number of plates or make the \$15,000 deposit. Additionally, TxDOT has been able to significantly reduce the actual cost of production since the inception of the fee.

H.B. 2627 decreases the fee for the production of specialty license plates from \$15,000 to \$8,000. This bill decreases the number of plates to be pre-sold from 3,500 to 1,900 for non-profit organizations and certain professional sports organizations, and from 1,500 to 800 for public and private universities. This bill requires TxDOT to return money deposited with a request to manufacture license plates if 1,900 sets of the applicable license plates are issued or pre-sold.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
