Committee Report (Substituted)

AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

In 2003, the 78th Legislature, Regular Session, created health group cooperatives. During the implementation and rules adoption process, the Texas Department of Insurance (TDI) expressed concern that allowing both large and small employers within a single cooperative could be difficult to administer. The 79th Legislature prohibited small and large employers from participating in the same health cooperative. Since that time, TDI has resolved the administrative concerns and now supports removing the prohibition. Allowing for flexibility in the structure of a health cooperative can lessen the difficulties in developing a cooperative within a community.

C.S.S.B. 1255 authorizes both large and small employers to participate within the same health cooperative. The bill also clarifies that membership in such a cooperative may be restricted to employers within a single industry.

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
