AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Currently, if a person alters or excavates a cave without a permit, the person is subject to a Class B misdemeanor charge. A person who participates in vandalism of a cave is subject to a Class A misdemeanor. It is important to strive for the enhancement, protection, and preservation of natural formations in caves by strengthening penalties for violation of the law.

As proposed, S.B. 1524 strengthens the penalty for defacing or in any way vandalizing caves in the state. The bill provides that a person who excavates, removes, destroys, injures, alters in any significant way, or defaces any part of a cave owned by the state without a permit, commits a Class A misdemeanor, except in the case when the person was convicted of a previous violation, in which case the person is guilty of committing a state jail felony. The bill also provides that a person who knowingly vandalizes a cave by breaking, cracking, carving, or harming the surface may be charged with a state jail felony.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to any state officer, institution, or agency.
