**AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

The Hays Trinity Groundwater Conservation District (district) works to conserve, preserve, recharge, and prevent the waste of groundwater within western Hays County. The district sits in one of Texas' most depleted aquifer areas and the area has been designated as a Priority Groundwater Management Area. Current law does not adequately enable the district to carry out its functions.

As proposed, S.B. 661 authorizes the district to enter into contracts, collect information to assist in joint planning efforts in the management area of the district, and prepare a budget and conduct an audit in accordance with Chapter 36 of the Water Code. S.B. 661 changes the length of terms to be served by the directors from two to four years, allows vacancies to be filled by appointment of the board, provides for the election date for directors to be the uniform election date prescribed by the Election Code, and authorizes the fees of the district to be used to pay administrative and other expenses of the district. Certain provisions which allow the Hays County Commissioners Court to call an election to either affirm or reverse a decision of the directors of the district and to request that the county auditor audit the performance of the district are removed by S.B. 661.

**RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to any state officer, institution, or agency.
