### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

In 2008, 78 percent of clients of the Children's Advocacy Centers (CAC) of Texas, Inc., were involved in sexual abuse cases. Ninety-eight percent of the victims served by a CAC last year knew their perpetrator. Training more people to identify the signs of child sexual abuse and to prevent further child sexual abuse from occurring better equips Texans to tackle the problem. Teachers and school personnel, as well as parents, interact with children daily in school districts throughout Texas and they should be equipped with the latest tools and information necessary to combat this problem.

C.S.H.B. 1041 requires each school district to adopt and implement a policy addressing sexual abuse of children to be included in the district improvement plan. This bill requires that the policy address methods for increasing teacher, student, and parent awareness of issues regarding sexual abuse of children, including knowledge of likely warning signs indicating that a child may be a victim of sexual abuse.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
