### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Current law allows for dental insurance carriers to implement contract provisions that set a limit on the amount contracting dentists can charge an insured patient for services not covered by the plan. Historically, when a contracting dentist treats a patient for procedures that either are not covered by the plan contract or not covered because the patient had exhausted their annual maximum, the participating dentist can bill the patient at the usual and customary fee. Insurance companies are now trying to set limits on what dentists may charge for services not covered under the plan contract.

At this time, 16 state have enacted legislation to prevent caps on non-covered services. A non-covered service is considered to be any service for which the third-party contract provides either no benefit or no reimbursement, including services that exceed the annual or lifetime maximums and services provided during waiting periods.

H.B. 1776 amends current law relating to contracts between dentists and health maintenance organizations or insurers.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
