### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

In 2007, the legislature transferred the procurement function of the former Texas Building and Procurement Commission to the comptroller of public accounts (comptroller). This achieved increased efficiency of these central governmental operations and improved quality of services and goods to all state agencies, which in turn enhanced the quality of services and goods delivered to taxpayers of this state. This also centralized and increased the accuracy and availability of detailed financial information on the state's purchasing expenditures for the providers and users of those goods and services. With this information in hand, the state can plan and implement future innovations to reduce costs and improve quality.

The proposed legislation strengthens the state's procurement practices by requiring the comptroller to leverage state spending in the most efficient manner and establishing sourcing standards and best practices that state agencies and higher education must follow to procure goods and services. The bill requires state agencies, upon request by the comptroller, to cooperate in establishing, maintaining, and revising uniform standards and specifications. This bill requires the comptroller to consider one or more services for development into a statewide contract and determine if the service may be leveraged for multiple state agencies at a cost savings and other industry standard practices.

As proposed, S.B. 1109 amends current law relating to state agency procurement and the comptroller's procurement powers and duties.

### **RULEMAKING AUTHORITY**

Rulemaking authority previously granted to the Texas Facilities Commission (TFC) is transferred to the comptroller of public accounts (comptroller) and modified in SECTION 4 (Section 2155.068, Government Code), SECTION 8 (Section 2155.078, Government Code), and SECTION 14 (Section 2155.132, Government Code) of this bill.

Rulemaking authority is expressly granted to the comptroller in SECTION 12 (Section 2155.088, Government Code), SECTION 13 (Section 2155.131, Government Code), and SECTION 15 (Section 2155.1325, Government Code) of this bill.

Rulemaking authority previously granted to TFC is rescinded in SECTION 14 (Section 2155.132, Government Code) of this bill.

SECTION 2. Amends Section 2155.002, Government Code, as follows:

Sec. 2155.002. New heading: **COMPTROLLER FOCUS ON LARGE EXPENDITURES**. Requires the comptroller of public accounts (comptroller), to the extent possible, to focus on purchases and contracts that involve relatively large amounts of money or that leverage state spending in the most efficient manner, rather than requiring the Texas Facilities Commission (TFC) to focus its efforts under this chapter

and Chapters 2156 (Purchasing Methods), 2157 (Purchasing: Purchase of Automated Information Systems), and 2158 (Purchasing: Miscellaneous Provisions for Purchase of Certain Goods and Services) on purchases and contracts that involve relatively large amounts of money.

SECTION 3. Amends Section 2155.064, Government Code, as follows:

Sec. 2155.064. New heading: **LEVERAGED PURCHASING.** Requires the comptroller, to the greatest extent possible, to pursue statewide contracts and attempt to leverage state spending to achieve cost savings for this state. Deletes existing text authorizing TFC to combine orders in a system of schedule purchasing and requiring TFC to benefit from bulk purchasing.

SECTION 4. Amends Section 2155.068, Government Code, as follows:

Sec. 2155.068. **UNIFORM STANDARDS AND SPECIFICATIONS.** (a) Authorizes the comptroller to coordinate uniform standards and specifications for goods purchased by this state, rather than authorizing TFC to coordinate uniform standards and specifications for goods purchased by TFC. Authorizes the comptroller, rather than TFC, by rule to adopt appropriate standards developed by a nationally recognized standards-making association as part of its specifications and standards program.

(b) Requires a state agency, on request of the comptroller, to cooperate with the comptroller in the establishment, maintenance, and revision of uniform standards and specifications, rather than requiring TFC to enlist the cooperation of other state agencies in the establishment, maintenance, and revision of uniform standards and specifications.

(c) Requires the comptroller to review contracts administered by the comptroller to ensure that all goods and services meet contract specifications, rather than requiring TFC to review contracts administered by TFC to ensure that all goods and services meet contract specifications.

(d) Makes a conforming change.

SECTION 5. Amends Section 2155.070, Government Code, as follows:

Sec. 2155.070. **FAILURE TO MEET SPECIFICATIONS.** (a) Requires a state agency that determines that goods or services received under a contract administered by the comptroller, rather than administered by TFC, do not meet specifications to promptly notify the comptroller, rather than TFC, in writing of the reasons for the determination. Requires the comptroller, as soon as possible, to determine whether the goods and services meet specifications, rather than requiring TFC to immediately make its own determination of whether the goods and services meet specifications.

(b) Authorizes the comptroller, for purchases exempt from the comptroller's purchasing authority, to determine whether the purchased goods and services meet or fail to meet specifications, rather than providing that TFC or a state agency, including an institution of higher education, as the authority to determine that goods and services exempted from TFC's purchasing authority meet or fail to meet specifications. Authorizes a state agency to also determine whether the good and services meet or fail to meet specifications.

(c) Makes a conforming change.

(d) Makes conforming changes.

Requires the comptroller, each state fiscal year, to consider one or more services purchased by one or more state agencies for development into statewide contracts. Requires the comptroller to determine if a particular service may be leveraged for multiple state agencies at a cost savings to this state compared to the cost to this state of purchasing the service under individual state agency contracts. Deletes existing text requiring TFC to annually select for study at least one service that is purchased by one or more state agencies. Requires the comptroller to consider awarding statewide contracts by region. Deletes existing text requiring TFC to study a selected service to determine whether the state would benefit if the service were provided to appropriate state agencies under a regional or statewide contract. Deletes existing text requiring TFC to give priority to studying services for which TFC has delegated the purchasing function to many state agencies.

Deletes existing Subsection (b) providing that TFC is not required to enter into a statewide or regional contract for the provision of a service to state agencies if more than five bidders are willing to provide the service to the state under a statewide or regional contract.

Requires each state agency to comply with the procurement manual in its procurement activities.

(b) Creates Subsection (b) from existing text. Requires each state agency, including the comptroller, rather than TFC, for a purchase of goods and services under this chapter, to purchase goods and services that provide the best value for the state.

(c) Redesignates existing Subsection (b) as Subsection (c) and makes conforming changes.

(g) Authorizes the comptroller, in performing the comptroller's duties under this chapter, to:

(1) require a state agency to conduct a hearing, study, review, or cost estimate, including an agency in-house cost estimate or a management study, concerning any aspect of a good or service identified under Subsection (e);

- (3) require that the identified good or service be submitted to competitive bidding or another process that creates competition;
- (4) prescribe, after consulting affected state agencies, the specifications and conditions of the purchase and the procedures that must be followed for the procurement of the identified good or service; and

Authorizes the comptroller to adopt rules to administer this section , including rules related to:

Requires the comptroller to set the fees in an amount that recovers the comptroller's costs in providing those services. Makes conforming changes.

- (b) Makes conforming and nonsubstantive changes.
- (c) Authorizes the comptroller to engage a consultant to assist with a particular procurement on behalf of a state agency and pay the consultant from the cost savings realized by the state agency.

SECTION 10. Amends Section 2155.083(n), Government Code, as follows:

(n) Provides that, notwithstanding any other provision of this section, a state agency that conducts covert law enforcement operations is not required to post the specifications for covert equipment in the state business daily. continue to warrant the delegated purchasing authority. Authorizes the comptroller to be revoked for any cause, including the agency's failure to comply with Section 2155.074, all or part of the delegated purchasing authority. Requires the comptroller to adopt rules to administer this subsection.

(d) Requires the comptroller by rule to prescribe the procedures a state agency must follow in making a delegated purchase, and the procedures by which a state agency may use the comptroller's services for delegated purchases under Section 2155.082.

(d) Redesignates existing Subsection (f) as Subsection (d). Prohibits goods purchased under this section from including:
