### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Observers note that differences in truck weight limit regulations between Texas and Mexico are requiring some produce companies located in the Rio Grande Valley to unload their shipments before crossing the border and to divide shipments into multiple trucks before driving on international bridges.

Interested parties assert that the stop in Mexico is especially inefficient because produce companies often stop again in Hidalgo County to split the produce for distribution throughout Texas, and they contend that these produce companies, the cities in which the companies are located, and economic development corporations support the designation of an overweight vehicle corridor to avoid the additional stop. These parties also contend that produce companies support the corridor and, due to their cargo's perishability, would be willing to pay a fee to avoid the extra stop in Mexico.

Recent legislation has designated overweight vehicle corridors in other areas of Texas, which interested parties say have been instrumental in moving cargo more efficiently.

C.S.H.B. 474 amends current law relating to an optional procedure for the issuance of a permit by a certain regional mobility authority for the movement of oversize or overweight vehicles carrying cargo, and authorizes a fee.

### **RULEMAKING AUTHORITY**

Rulemaking authority is expressly granted to the Texas Transportation Commission in SECTION 1 (Section 623.328, Transportation Code) of this bill.
