### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Interested parties assert that victims of human trafficking access health care services at various points of the state's health care system and often visit abortion facilities accompanied by a trafficker or pimp. The parties also assert that these victims sometimes seek an abortion when forced by a trafficker. Concerns have been raised that these women can slip through the system unnoticed because abortion facility workers do not know how to identify trafficked women and consequently miss an opportunity to rescue them. H.B. 416 seeks to equip abortion facility workers with the training to identify human trafficking victims.

H.B. 416 amends current law relating to requiring personnel of abortion facilities and certain other facilities performing abortions to complete training on human trafficking.

[**Note:** While the statutory reference in this bill is to the Texas Department of Health (TDH) the following amendments affect Department of State Health Services as the successor agency to TDH.]
