AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

S.B. 1301 reduces the number directors of the Texas Water Resources Finance Authority from six to three and changes the number of board members that it takes to request and hold a special meeting from three or more to a majority of the directors.

H.B. 4, 83rd Legislature, Regular Session, changed the number of Texas Water Development Board members from six to three. However, the number of directors of the Texas Water Finance Authority was not changed, and the law still reads a six-member board.

S.B. 1301 addresses the issue by changing the language for the number of board of directors from six to three, to match that in H.B. 4, and changing the number of board members it takes to request and hold a special meeting from three or more to a majority of the directors.

S.B. 1301 amends current law relating to the governance and administration of the Texas Water Resources Finance Authority.
