AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Most commercial lines insurance policy forms are subject to filing and prior approval, but some contain standardized provisions. Other methods of form regulation, such as file and use, use and file, or exemption from filing may be more appropriate for lines where the forms have limited use or are standardized.

Giving the commissioner of insurance (commissioner) authority to exempt or limit the review for certain commercial lines forms will allow TDI staff to focus on reviewing policy forms for lines of insurance that have the greatest impact on consumers, such as homeowners and personal automobile.

S.B. 654 gives the commissioner authority to exempt or limit the review of forms for certain commercial lines of insurance.

As proposed, S.B. 654 amends current law relating to regulation of policy forms for certain commercial property and casualty insurance.
