### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

H.B. 1342 amends the Education Code to require that child abuse antivictimization programs provided by school districts in public elementary and secondary schools include annual, age-appropriate, research-based child sexual abuse prevention training designed to promote self-protection, prevent sexual abuse and trafficking of children, and reduce child pregnancy. The bill requires school districts to ensure that enrolled students attend the training each year, with the districts providing at least two training opportunities during the year. Not later than September 1 of each year, school districts would submit a report to the Texas Education Agency on the number and percentage of students enrolled in the district who attended the child sexual abuse prevention training during the preceding school year and would submit the initial report not later than September 1, 2018. The bill applies beginning with the 2017-2018 school year.

H.B. 1342 amends current law relating to child sexual abuse prevention training for public school students.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
