C.S.S.B. 1262 By: Johnson Natural Resources & Economic Development 4/7/2019 Committee Report (Substituted)

## **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

C.S.S.B. 1262 would authorize the City of Garland to use hotel/motel tax revenues for expenses related to sporting events in which the majority of participants are tourists, upgrading existing sporting facilities, and lowering the minimum amount allocated for advertising and promotions.

Chapter 351, Tax Code, currently mandates that municipalities with a population over 200,000 allocate 50 percent of their hotel/motel tax revenue for advertising and promotions. This one-size-fits-all restriction for municipalities with populations over 200,000 is not practical for a city such as Garland. Although Garland spends a substantial amount of money for targeted advertising and promotions (approximately \$48,000 in 2018), it does not desire to overspend and waste hotel/motel tax money on ineffective advertising or promotions. As a result, this particular restriction has created a sizable account containing what Garland calls "orphaned funds." Garland would prefer to put the orphaned funds to work in a responsible manner by using the revenue to host regional and state sporting events and upgrade sporting facilities.

The City of Garland has a robust park and trail system in which it could host regional, state, and national sporting events. However, due to falling into a higher population bracket, the City of Garland is currently prohibited from utilizing hotel/motel tax revenues to promote sporting events and upgrade sporting facilities. C.S.S.B. 1262 amends current law relating to the allocation of hotel occupancy tax revenue collected by certain municipalities.

## **RULEMAKING AUTHORITY**
