AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Currently, there is no centralized location for stakeholders and local entities to find information on federal funding available for flood control projects or mitigation. S.B. 563 requests state agencies and universities receiving or disbursing federal funds to provide information on those funds to the Texas Water Development Board (TWDB) quarterly. The information must include the total amount, the amount available, and information on how to apply.

TWDB is required to post the information on their flood information website and to keep the information updated. (Original Author's/Sponsor's Statement of Intent)

S.B. 563 amends current law relating to the reporting of information about the use of federal money for flood research, planning, and mitigation projects.
