

Interim Committee Charges Released

Posted At : October 24, 2011 2:05 PM | Posted By : TexasLRL

Related Categories: Speaker of the House, Interim reports, Legislative process, Lt. Governor

Speaker of the House Joe Straus has released his [interim charges](#) to House standing committees, and Lieutenant Governor David Dewhurst has released [select interim charges](#) relating to drought and wildfire preparedness to Senate standing committees. The complete text of these charges, as well as information about legislative committees, can be found in the Legislative Reference Library's [legislative reports database](#). In the "Search committee charges" section, choose "82nd" as the legislature and click "search" to see a complete list of charges that have been issued for the 82nd Legislature. This list will be updated as additional charges are released. If you'd prefer to see only charges relating to a specific topic or committee, try filling in the "subject" or "charge text" boxes to get a list tailored to your needs.

You can also use the legislative reports database to search for committees and full-text interim committee reports all the way back to the 1st Legislature, or you can view a complete list of [committees by session](#). If you're not sure which committee you need, check out the [committee search](#) page. Finally, our new [committee minutes](#) database contains the full text of minutes from House and joint committees from the 63rd through 74th Legislatures (1973-1995). Senate minutes for those years are currently being scanned and will be added as completed.
