Whether you're examining current state budget documents or seeking historical perspective, visit the LRL's [budget page](#) to explore a variety of resources on the subject. This page can be your one-stop shop to find the final General Appropriations Act, proposed budgets and agency requests, the biennial revenue estimate, and more for the current biennium. An interactive timeline helps visitors track the current status of the biennium and is updated as budget bills and related documents are released.

You'll also find timelines for past biennium that are available as PDFs, as are scanned appropriations acts and major biennial appropriations bills from 1927-2015. The page includes links to reports from the [Comptroller](#) and the [Legislative Budget Board](#), as well as helpful guides explaining the budget-writing process in Texas.

The Library also has state agency budgets, legislative appropriations requests, agency strategic plans, and other primary documents relating to the budget process available for use in print.
