We've been sharing regular posts about upcoming [interim hearings](#)..but are you wondering where you can find information about all of the committees and the 350 charges? Currently, we have a link to the [interim charges list](#) on our homepage to make them easy to find. However, you also can use the [Committees](#) section of the LRL website to refine your research.

- Using [Committees by session](#), you can see a list of all of the committees, and click on the committee's name to view its interim charges. (Note that not all of the committees have received charges.) You also can select past sessions to view charges, committee members, etc., from past Legislatures.
- If you are looking for a particular committee, you can use [Committee search](#) to navigate directly to its page.
- On our [Legislative reports](#) page, you can search committee charges in the second section of the page. Here, if you want to find every committee that has been assigned a topic that could potentially fall in the purview of multiple committees, you can use the "subject" or "charge text" box to search for that term. (See subject search results for "prescription drugs" below.)

When committees start submitting their reports in the months just before the next legislative session, you also can search on the [legislative reports](#) page to find those items.
