Committee Report (Substituted)

### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

This bill enables the City of Pflugerville (city) and a local municipal utility district (MUD) developer in the city's extraterritorial jurisdiction to enter into an allocation agreement that will permit the city to annex part but not all of the New Sweden Municipal Utility District (district). The city expects to eventually annex the entire district, but both the city and the developer envision an intermediate period during which only part of the district is located in the city.

C.S.S.B. 2043 creates an exception to Section 43.071 (Authority to Annex Water or Sewer District), Local Government Code, that provides that when a city annexes any territory in a MUD, it is required to dissolve and annex the entire district. This bill authorizes the city and the district to enter into an agreement to allocate tax revenues in a manner proportionate to the delivery of services.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
