### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

The Texas Department of Licensing and Regulation (TDLR) regulates vehicle storage facilities pursuant to Chapter 2303 (Vehicle Storage Facilities), Occupations Code. This regulatory program was transferred to TDLR from the Texas Department of Transportation (TxDOT) in 2007 following the passage of H.B. 2094. However, when the program was transferred to TDLR, a reference to TxDOT's licensing program was not removed from the statute.

In accordance with Chapter 2303, Occupations Code, a person must obtain a license from TDLR in order to operate a vehicle storage facility. In addition, the operator of a vehicle storage facility must comply with notice requirements upon receiving a towed vehicle for storage. Specifically, the statutorily required disclosure must contain basic identifying information relating to the vehicle and the vehicle storage facility, including the facility operator's license number.

S.B. 1053 replaces a reference in Section 2303.153 (Contents of Notice), Occupations Code, to "Texas Department of Transportation" with "Texas Department of Licensing and Regulation," so that the required information contained on a vehicle storage facility disclosure accurately reflects the state's current regulatory program.

As proposed, S.B. 1053 amends current law relating to the content of a notice provided to an owner or lienholder of a vehicle towed to a vehicle storage facility.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
