AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Texas taxpayers spend several billion dollars every year to fund state programs. Many programs are inefficient and wasteful and the people of Texas deserve a legislature that will ensure better use of their tax dollars. The 65th Legislature enacted the sunset review process to tackle the issue of government waste and inefficiency. While the sunset process recommends whether an agency should or should not continue, the Sunset Advisory Commission does not make any recommendations regarding individual program waste or inefficiency within each agency's state-funded programs.

S.B. 142 creates a sunset-type process for the budget of each agency that is up for sunset review. The Legislative Budget Board (LBB) will be responsible for analyzing the individual programs of each agency and LBB will make recommendations to the Sunset Advisory Commission, the governor, and the legislature regarding whether programs should continue to be funded at the current level, if at all. Each agency undergoing sunset review will have a zero-based budget in that legislative session so members can make informed decisions regarding future funding of each program at every agency.

As proposed, S.B. 142 amends current law relating to zero-based budgeting for state agencies as a part of the sunset review process.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
