AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Interested parties note that the state faces difficult challenges in developing water policies that serve both state and regional interests and that, in recognition of certain local groundwater supply limitations, the Hill Country Priority Groundwater Management Area was designated a number of years ago to include territory in Comal County and surrounding areas. The parties further note that while groundwater conservation districts have been created in the surrounding areas, a portion of Comal County lacks such a district, and the parties assert the need for a district in that area in order to plan, develop, and regulate the use of water in the area. H.B. 2407 seeks to address this need.

H.B. 2407 amends current law relating to the creation of the Comal Trinity Groundwater Conservation District, provides authority to issue bonds, and provides authority to impose assessments, fees, or surcharges.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
