### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Interested parties note that the state faces a difficult challenge in developing water policies that serve both state and regional interests and that, in recognition of certain local groundwater supply limitations, the Hill Country Priority Groundwater Management Area was designated a number of years ago to include territory in Comal County and surrounding areas.

The parties further note that while groundwater conservation districts have been created in the surrounding areas, a portion of Comal County lacks such a district and the parties assert the need for a district in that area in order to plan, develop, and regulate the use of water in the area. S.B. 963 seeks to address this issue.

As proposed, S.B. 963 relates to the creation of the Comal Trinity Groundwater Conservation District, provides authority to issue bonds, provides authority to impose assessments and fees, and prohibits the district from exercising the power of eminent domain.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
