AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

The purpose of this bill is to allow licensed chiropractors the opportunity to jointly own and operate professional healthcare entities with certain licensed healthcare practitioners (Doctors of Medicine — MD, Doctors of Osteopathy — DO, and Doctors of Podiatric Medicine — DPM).

Currently in Texas, certain licensed healthcare practitioners (MDs, DOs, and DPMs) may jointly own and operate a healthcare entity (in the form of non-profit corporations, partnerships, professional limited liability companies and professional associations). Other providers of healthcare services, particularly Doctors of Chiropractic, are prohibited from entering into similar ownership and operating agreements. Further, Doctors of Chiropractic often encounter legal and administrative barriers when attempting to work with other healthcare professionals.

This bill accomplishes the following:

- Adds Doctors of Chiropractic to the existing list of healthcare practitioners (MDs, DOs, and DPMs) allowed to jointly own and operate a healthcare entity.
- Enables joint ownership and operation through several legal entity structures, including non-profit corporations, partnerships, professional limited liability companies, and professional associations.
- Limits the scope of each healthcare practitioner's authority by expressly stating a practitioner cannot exercise control over another practitioner's clinical authority.

As proposed, S.B. 679 amends current law relating to the authority of chiropractors to form certain business entities with certain other professions.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
