### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

The governor appoints, and the Senate confirms, the members of the governing boards of the river authorities across the state. The governor has designated the presiding officer of three river authorities since their inception (Brazos, Lower Colorado, and Upper Colorado). The Sunset Advisory Commission recommended this governing structure for the Sulphur Basin River Authority, which passed through the legislature in the 85th regular session. This Sunset cycle, the Sunset Commission recommended the same provision for three additional river authorities (Guadalupe-Blanco, Nueces, and Red), which is currently under consideration by the legislature. On the remaining boards, the members of the boards elect their presiding officer.

This legislation would require the governor to designate the chair of all 17 river authorities, thus creating a more direct link between the governor and the actions of the board as guided by the chair. Creating uniformity with the designation authority will provide for more direct oversight from the Office of the Governor to all of the Texas river authorities.

As proposed, S.B. 407 amends current law relating to the presiding officers of the boards of directors of river authorities.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
