### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Last session, the legislature passed S.B. 417 by Senator Watson with zero nays in the Senate and two nays in the House. S.B. 417 allows insurance companies to provide a conspicuous, plain language notice before making a material change to a policyholder's property and casualty policy.

Before S.B. 417, this type of notice was typically lost in a policyholder's paperwork. Furthermore, many coverage reductions triggered cancellation notice requirements under the Insurance Code. This caused a lot of confusion because policyholders would decide to renew their policy with a coverage reduction and then receive the required notice of cancellation.

S.B. 417 addressed these problems by streamlining the procedures. Instead of providing a notice of cancellation, an insurance company can clearly describe the material change, which is more helpful to the policyholder and his or her agent. However, S.B. 417 only applied to personal property and casualty policies, like home and auto coverage. Therefore, insurers still have to send notices of cancellation when this situation comes up for commercial policies.

S.B. 590 adds commercial and liability policies to the provisions the legislature passed via S.B. 417 last session. This will allow businesses and their insurance companies to benefit from the improved notice options as they make decisions about their insurance needs. C.S.S.B. 590 amends current law relating to the cancellation and nonrenewal of certain liability and commercial property insurance policies.

(b) Provides that a change to a liability insurance or commercial property insurance policy provision on renewal is not a nonrenewal or cancellation under this subchapter if the insurer provides the insured with written notice in accordance with this section of any material change in each form of the policy offered to the insured on renewal from the form of the policy held immediately before the renewal.
